PREFACE

PREFACE

In this 53d volume of the Lineage Book I would call your attention to the inestimable service these books render in genealogical research, for in each volume is found the lineage of one thousand members of the National Society, Daughters of the American Revolution. These certified ancestral records are printed in an available form, and as time passes on they will become more and more valuable, especially in such localities where the opportunity for research is limited.

These books possess a value to Chapters that cannot be estimated, and as they can be secured upon the payment of postage we urge upon Chapter Regents the importance of securing for their Chapters a complete file of these volumes, making for them in time a library of intrinsic and historic value.
